1. The amendment filed on 03/08/2004 is considered non-compliant because each claim has not been provided with the proper status identifier. Accordingly, the amendment is not entered.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Bean on 03/25/2004.

The application has been amended as follows:

**The claims:**

**Cancel claims 1-33, and 51-59.**

#### **REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance: Note that the art rejections over Kirjavainen are considered moot in view of the claim cancellation. The 112 claim rejections have been overcome by Applicant's arguments (the third full paragraph at page 13 of the 02/09/04 amendment). The inclusion "the film as defined in the claims being not coated with an electrically conductive layer" rendered the instant claims patentable over the prior art. The support of the negative recitation is found at page 6, lines 10-16 of Applicant's specification.
